FLENDER

YOUR GEAR UNIT ISN'T WORKING EFFICIENTLY OR IT'S DEFECTIVE?

If your gear unit is worn or has even become defective, the efficiency of your entire plant will gradually deteriorate. To prevent expensive downtime and to ensure your production and supply capacity, you must take action quickly.

You need to replace your old gear unit – Flender is your reliable partner for this topic.

YOU DON'T HAVE A
FLENDER GEAR UNIT?
No problem – we replace
3rd party gear units
as well!

FLENDER GEAR UNITS ARE ALWAYS COMPATIBLE WITH YOUR PLANT.

Based on decades of experience, we design customer-specific solutions for entire drive trains and for a wide variety of industries and applications. We offer expert know-how in a wide range of mechanical drive technology as well as uncompromising quality in our comprehensive product portfolio. The replacement of an old gear unit or coupling, regardless of whether it is a Flender product or not, is normally carried out on a one-to-one basis so that no changes to the plant are necessary.

With our services, which commence with consulting and customer-specific configuration and accompany the entire life cycle of Flender products, we are always at your side as a reliable partner. In combination with our innovative condition monitoring systems, we can get your plant ready for the digital future and for a long operating life with our guarantee of a long-term spare part availability for our state-of-the-art gear units and couplings.

Approaching us is simple and fast and due to our short delivery times, your system will work efficiently again in no time. And as your reliable partner, we make sure that it will stay that way. Our lifecycle support promise applies worldwide and 24/7 - we're there for you: globally and regionally.

1 You submit us your request

2 We evaluate your gear unit data

3 We provide you an offer

4 You send us your order

5 We manufacture your gear unit and deliver it

6 With our support, you replace the gear unit

REPLACE YOUR GEAR UNIT WITH A FLENDER GEAR UNIT.

Just send a photo, a name plate and dimension drawings of your existing gear unit to the e-mail address cs-md-service.industry@flender.com. Please also fill out the data sheet "Drivetrain information". We will then evaluate the data and provide you an individual offer.

For one of our many projects, we replaced a 3rd party gear unit that was used to operate the Sugarloaf cable car in Rio de Janeiro with a Flender bevel-helical-shifting gear unit.
